Vimalo Brands Enters a New Era
By Yvette Maurer

VANCOUVER (2 August)—Vimalo Brands, the large consumer goods company that markets popular nutritional-support and personal-care products, including Powerburst breakfast drinks and Honeysoft soaps and lotions, will soon offer something new for its customers: frozen foods. "Our new Nutridinna line is not just about convenience," CEO Danitza Martens said during a press conference earlier today. "Frozen foods are not a new concept, but our method of flash-freezing fresh produce and meats ensures that our products retain their texture and flavour as well as their healthy vitamins and minerals. Now our customers can enjoy the convenience of frozen food without sacrificing quality."

Vimalo Brands has partnered with Vancouver-area farms to obtain produce and meat for the Nutridinna line. "By keeping our operations local, we avoid shipping delays and can flash-freeze freshly harvested vegetables at their peak of ripeness," Martens said. "Our customers benefit further, since our products can be kept in the freezer for up to six months." Nutridinna foods will be available in supermarkets beginning in November. Frozen fish and other seafood will be added early next year.

Tips for designing a Web site for a food-truck business

Owners of food trucks move from place to place, within and between cities, as they carry out their business, so they often rely on word of mouth or social media to attract customers. As a result, they may not build a Web site of their own. But in fact, by the very nature of their business, it is crucial that food truck owners have a fixed place for the public to learn about them, order from them, contact them, etc. Furthermore, market research shows that a Web site can help build a loyal customer base. So, here are some tips for developing a great Web site for your food truck.

The Home page should have bold graphics with your food truck's name. The text must prominently display key information, such as your truck's locations and operating hours. Online forms with fields to fill out, such as reservation requests for special events or services, give new visitors too much visual information. They are better incorporated as links or pop-up windows.

The Food Menu page needs attractive, high-definition images along with vivid and precise text that describes each menu item in detail. Remember that your photos should be big enough to look appealing on larger computer monitors.

The About Us page should include some text explaining your food truck's theme and concept, and some biographical data detailing your background in the food industry.

The News page can include text informing visitors about seasonal food items and upcoming promotions or special events such as food festivals.

To: Manny Green <mgreen@rhba.com> · From: John LaRose <jlarose@rilamore.edu> · Date: May 18 · Subject: Drilling notice

Dear Mr. Green:

As a courtesy, I am writing to you at the Red Hills Business Association, asking you to help me get the word out to your membership. It was announced in last month's *Daily Gazette* that Rilamore University is moving forward with its Net Zero Initiative. Within three years, we expect to have geothermal wells installed and operational for the heating and cooling of our entire campus. Limiting the institution's reliance on fossil fuels has long been a goal, and the new system is a significant step toward achieving that goal.

Over the next month, we will conduct test drilling in several campus locations. If all goes according to schedule, the crew will be drilling adjacent to the Red Hills Business District and Oak Street Apartments starting Wednesday, June 5. We want to tell business owners and residents near the campus to expect a higher-than-usual noise level during the two weeks we estimate it will take to complete the work. The work hours for the drilling crew are 10 A.M. to 3 P.M. each day, Monday through Friday.

We apologize in advance for the inconvenience this may cause to our neighbors. Any questions or concerns should be directed to me at 813-555-0123.

How may we help you?	During last week's windstorm, several roof shingles were torn loose and need replacing. I am considering replacing the entire roof as it is over 30 years old, and water has begun to drip through the section over the patio. I would appreciate talking to someone who could tell me my options and provide an estimate.

Neighborhood Reviews: Lawal Home Service

★★★★★

"I was very pleased with the thoroughness of their work."

I left a description of my problem with Lawal Home Service, and one of the company's estimators came to

inspect my roof the very next day. After I decided to replace the roof, the Lawal Home Service crew was able to get to work the following week. Diana Perez was on-site for the whole job as promised and answered all my questions. Work was started on December 19, and it was finished on December 20. Once the roofing was finished, the crew did a great job cleaning up. They used two magnetic devices resembling lawnmowers and swept over my entire lawn to find any dropped roofing nails. I had never seen anything like that! I was very pleased with the thoroughness of their work.

To: Juanita Pereira <jpereira@bunbunbooks.com> · From: Omar Balaji <obalaji@darbourycompany.com> · Date: May 25 · Subject: Re: Notebook inquiry

Hello, Ms. Pereira,

I have shipped some sample notebook covers for your inspection. Unfortunately, I was not able to include one of the designs for your approval because it needed a late-stage change to the background color. The sticker art did not show up well against the original black background. We are testing a light-beige color, and I will send the updated sample cover to you after it has been approved internally.

I should have the last sample to you by the end of this week. As long as you send your approval of all covers by June 11, we will be able to ship your entire order of bound notebooks before July 20. You will have everything before your sale that begins on August 1. Please contact me if you have any questions.

Best regards,
Omar Balaji, Darboury Company

CÂU 196–200 · E-MAIL, ĐÁNH GIÁ & THÔNG BÁO — WILSON AUTOS

To: Managers · From: Charlotte Black · Date: August 16 · Subject: Employee of the month

Dear Managers,

It is time to vote for the Wilson Autos Employee of the Month for September. Here are the nominees.

Erica Boyd has been with us for only a few months but has already shown great promise and is eager to

learn new things.

Lauren Almahdi is very proactive. If something needs to be done, she will point it out to a manager and volunteer to take care of it herself.

Nick Salehi found a glitch in our computer system and stopped us from incorrectly ordering unnecessary inventory (thus saving us money).

Max Rhodes has been especially helpful with training new hires. He is calm and patient and explains our procedures well.

Please respond to this e-mail by Friday with your vote. The winner must receive at least three votes. The winner will be posted at our front desk and on our Web site next Monday.

Thanks,
Charlotte Black

Wilson Autos (Westchester)
★★★★★

My wife and I just bought a new Excelera truck at the Wilson Autos Westchester location with the help of Erica Boyd. Even though she was new, she was very knowledgeable about all the trucks on the lot that we wanted to test drive. The few questions she was unable to answer were quickly addressed by her mentor, Max. We were very pleased with the customer service and even more delighted when the general manager agreed to sell us the Excelera for the same price that a competing dealership was advertising. I highly recommend Wilson Autos if you are in the market for a new vehicle!

—Henry Riggs, August 22
The employee of the month for September is ERICA BOYD!

In her three months at Wilson Autos, Erica has picked up new skills quickly and is always trying to learn more. She has become very knowledgeable about our inventory and is able to share her knowledge with customers to complete sales. We received more great reviews in the past month than we did in the four previous months combined!

Erica has received a $50 gift card to Alonzo's Restaurant as a thank-you for her excellent work.

Congratulations, Erica!

New Garden Coming Soon to Raxford Park

ELBART CITY (March 30) — Local community group Friends of Green Spaces (FGS) is raising funds to build a new garden in Raxford Park. The group, which relies entirely on donations, collaborates with the city parks department on restoration and enhancement. It also offers guided nature tours and other educational programs.

'The goal of the current project,' said FGS director Carol Reynoso, 'is to create an attractive space to draw in more of the region's abundant birdlife.'

Ms. Reynoso, a 25-year member of the FGS, is a lifelong resident of Elbart City. She is especially enthusiastic about the project because the city's elementary school borders the park. This means that the schoolchildren will be able to enjoy the garden every day.

Ms. Reynoso said that enough funds have already been secured to enable the FGS to begin garden construction in mid-April. The selection of plants will be made by Elbart University faculty. About Our Products

We make three-wheeled cargo bicycles for commercial and personal use. All our bicycles are made by hand in our production facility in Kuala Lumpur with parts made by local craftspeople. For more than 40 years, we have been building high-quality, eco-friendly bicycles that are good for the health of both people and the planet. We are proud of our products, and we invite our customers to take photos of their Branxley bicycles in action and share the images via social media.

Update — 30 August
We have experienced a dramatic surge in orders. Even with our staff working overtime to catch up, it may take longer than usual for customers to receive their bicycles. Currently, we are expecting a delivery time of 10 to 12 weeks for all bicycles ordered on or after August 15. We appreciate your understanding in this matter.

Review of Branxley Cycles

I have been a cycling enthusiast most of my life. Recently, I decided I needed a bicycle to bring bulky items home from stores. I searched online and inquired at local shops, but no one had quite what I wanted. After talking with a coworker, I learned about Branxley Cycles. I contacted the company via e-mail, and all my questions were answered promptly and thoroughly. I ordered a three-wheeled cargo bicycle from them on August 20 that was delivered in only two weeks. Branxley Cycles cargo bicycles have become very popular with area businesses; I see them everywhere now. It is hard to believe the company can meet the demand, but they manage to do it. I am very happy with my Branxley Cycles purchase, and I recommend it to everybody that comments on it as I ride it around town.

CÂU 181–185 · ARTICLE — MILNE ASSOCIATES & CITY TRAVEL REVIEW

EDINBURGH (2 July) — Jackson Milne says being part of a family business feels good. He jokes that he has a prime seat in his organisation—and, in a way, he does. The century-old company Milne Associates designs and supplies seats to theatres here in Edinburgh as well as in London and New York. It was founded by his great-grandfather Angus Milne. Jackson Milne has worked in every area of the business, from the factory floor to the executive suite. He became the company's director of design last year.

'Making these seats can be quite challenging, especially ones for older buildings,' said Mr. Milne, who designed the seats for the 135-year-old Wolff Theatre. That is where the hit musical Skyscrapering is now playing to packed houses most nights.

'Our priority is creating pieces that are functional and in harmony with their surroundings,' he said. 'We try to balance aesthetics, practicality, and convenience.'

City Travel Review: Plenty to See and Do in Edinburgh

I had a delightful day in Edinburgh last week. I hadn't been to the city in quite a while—more than 25 years—and so much has changed! One day was not enough to see everything, so I'm already planning another trip for later in the summer.

My friend and I took the train there, and our first order of business was a guided tour of Old Town. It was marvellous! We had lunch at the Red Rose Café, which I highly recommend to anyone who appreciates delicious food at a reasonable price. The day's highlight was attending a performance of Skyscrapering. It was wonderful! I enjoyed everything about it—the acting, the story, and the songs. The Wolff Theatre is a lovely historical venue. After our long day around town, we were grateful for the theatre's new, comfortable seating.

CÂU 186–190 · WEB — ORVALE NATURAL HISTORY MUSEUM & E-MAIL

Upcoming Events

The Orvale Natural History Museum's monthly lecture series will continue on October 18 with a lecture by

resident archaeologist Dr. Maria Fiallo. The lecture, titled 'Earthenware Relics from the Central Prairie,' will take place at 7:00 p.m. in the Chovey Community Room near the north entrance of the museum. Dr. Fiallo will discuss last month's unearthing of several pottery pieces in the Central Prairie region, marking the first find of its kind in this area. 'Surprisingly,' said Dr. Fiallo, 'the site was literally stumbled upon by a farmer digging a well on his land. Thankfully, he alerted our museum's research team as soon as he spotted the pieces.'

Audiences will get to see some of the earthenware up close at the event, as well as other types of everyday objects. However, many of the pieces will be shown in photographs, as they are too delicate to be moved around. Dr. Fiallo says she is looking forward to sharing this latest discovery. 'The findings give us a glimpse into how people went about their daily lives over 800 years ago,' she said.

The lecture is free and open to the public.
To: Richard Choi · **From:** Deborah Voll · **Date:** October 11 · **Subject:** Lecture series

Hi, Richard,

I was just contacted by Professor Allen Whitford from Orvale University's archaeology department. He would like to bring two of his classes to Dr. Fiallo's lecture on October 18. Both classes are studying how to identify and analyze historical artifacts, so he was very happy with the topic of our lecture this month. What's more, Professor Whitford is a former research colleague of Dr. Fiallo. I am inclined to indicate my support, but I just want to make sure we can accommodate the approximately 30 students he is planning to bring—in addition, of course, to members of the public who want to attend.

We will need more than 75 seats, so let's discuss moving the lecture to another location in the museum. There are a couple of alternative spaces, right? I would like to reply to Professor Whitford as soon as possible.

Thanks!
Deb

E-mail Message

To: Janice Trapani, Choir Director · From: Kevin Ellis, General Manager · Date: 7 July · Subject: Planning for autumn

Hello, Janice,

I need to update you on a couple of issues affecting our autumn schedule.

The arts commission has asked our Gradey City Choir to debut a special piece of music in November, the oratorio By the Meadow by Gradey City's own Jeffrey Stolartz. It is such an honour to be selected to perform this composition! This addition to our schedule completes our autumn lineup.

Unfortunately, I learned late last week that two singers need to be replaced before rehearsals begin in August. Since we are already one week into July, I opened an account with Music Link Plus (MLP) this morning to expedite our search. Tomorrow, I plan to post our positions on their Job Listings page. Using this Web site will allow us to reach countless potential applicants. Additionally, MLP gives us the option of having candidates audition by providing video recordings. Given our time constraints, we should consider having auditions done this way. However, if you feel that in-person auditions are necessary, please let me know by the end of the day today.

2. Submit an application for a building permit. Please contact Ronald Abioye at the City Planning Office if you need assistance completing this application.

CÂU 168–171 · BLOG — REGINA'S ART WORLD

Regina's Art World Blog

As regular readers of my blog know, over the past few weeks, I have concentrated on the revitalization of the Brentler Heights waterfront district by developer and former architect David Greeley. [1] By far, the most impressive result of this program is the renovation of a former industrial building on Paxton Street. The building's first floor now houses a popular coffee shop and bookstore, and its beautifully landscaped gardens include creative metal sculptures. [2] I am pleased to report that the second floor will be occupied by the Brentler Heights Gallery.

The gallery will be run by Francine Skandar, a Brentler Heights artist I met years ago at a jewelry-making workshop. I always admired her work, and I obtained many of her creations to sell at my shop. I was delighted to learn that she will be managing this high profile gallery. On a media tour, Ms. Skandar highlighted how Mr. Greeley retained nearly all of the Paxton Street building's original features to give it a vintage character. [3] This makes it an ideal backdrop for all types of art.

The gallery's inaugural exhibit will showcase Ms. Skandar's work. [4] The grand opening will occur on June 8 and 9 from 2:00 P.M. to 7:00 P.M. For more information, visit www.brentlerheightsgallery.org.

CÂU 172–175 · CHAT — LIZ YUEN, HELEN BLACK, JEFF SPINA

Chat discussion **Liz Yuen [8:58 A.M.]** Hi, all. Thank you for your prompt feedback on the Web site content I sent out in the group e-mail. Everyone agrees that the photos and the accompanying content do not seem to market the calendars strongly enough.
Helen Black [8:59 A.M.] Right. But, to confirm that we're looking at the same material—there are several photos showing our desktop calendar each with the caption 'The promise of a new year with a calendar from Stennex Stationery.'
Liz Yuen [9:01 A.M.] That's correct. But the main problem is that the photos and the content that accompanies them need to be more engaging and interactive.
Jeff Spina [9:02 A.M.] I agree. What if we ask customers to send us their written comments on how they use our calendars to help them organize their home offices? They could also send us a picture of their home office with our calendar in the image.
Helen Black [9:04 A.M.] I'd be happy to share a photo of my own setup—from one of the days that I'm working from home. And I could write an explanation of how using the calendar helps me keep track of things. We could use that as an example for customers to follow.
Liz Yuen [9:05 A.M.] Great idea. And what about the problems with the functionality of the Web site?
Jeff Spina [9:06 A.M.] That would be great, Helen.
Helen Black [9:07 A.M.] I saw those.
Jeff Spina [9:08 A.M.] I'll speak with Ryeo Jee about that. Her team should be able to get the pop-up window and social media links working again soon.
Liz Yuen [9:09 A.M.] Thanks, Jeff. Once the site is functional and we have our content finalized, her team can update the home page with what we have decided.

To: Customer Service <customerservice@takembootcompany.com> · **From:** Bella Meyers <b.meyers@leadmail.com> · **Date:** 15 August · **Subject:** Order 13783

Hello,

I recently ordered a pair of your Western boots in style Erin, size 40, in the chocolate colour. The boots arrived yesterday, but unfortunately, their actual colour is different from the colour pictured on your Web site. I had been hoping to wear the boots to a special event next month, but they are much darker than

expected and do not match my planned outfit.

I would like to exchange the boots for another pair of the same style and size but in the terracotta colour. Please let me know how to proceed. I have purchased several pairs of boots from your company in the past and have always been pleased with their durability and comfort.

Bella Meyers

To: Bella Meyers <b.meyers@leadmail.com> · **From:** Customer Service <customerservice@takembootcompany.com> · **Date:** 16 August · **Subject:** RE: Order 13783

Dear Ms. Meyers,

Thank you for your e-mail. I am sorry you were disappointed with your order. We are happy to arrange an exchange as long as the boots you wish to return have not been worn.

At the moment, boots in the size, style, and colour you are requesting are out of stock. Because we are a small company, our inventory is not always fully available. Other than what you have purchased, we currently have the Erin boots of your size in the following colours: sand and forest. Since you are interested in a paler colour, I recommend sand. It is a warm shade and very versatile. Additionally, we have other styles available in your preferred colour, including Viola boots, our most popular style.

Please let me know if you would like to exchange your boots for any of the above options. If so, I can send you a postage-paid return label via e-mail for you to print at home.

Thank you for your business. If you have not signed up for our newsletter yet, I suggest you do. We offer discounts on discontinued styles.

Sincerely,
Brendan Stephens, Customer Service Representative

To: Jessica Marpone <jmarpone@halecityca.gov> · **From:** Greg Tanner <gtanner@halecitynews.com · **Date:** July 1 · **Subject:** Community comments

Dear Ms. Marpone,

My last article about East Core Park attracted quite a few online comments. The comments were from residents complaining about overgrown weeds and fallen branches on the Blue Trail. They say the Red Trail is in good condition, but maintenance issues have persisted on the Blue Trail for quite some time.

As the newest member of the city council, you might not have heard many complaints yet. However, if you do get briefings regarding the situation, I would be grateful for any updates you can pass along. I reached out to parks commissioner Oscar Lunes for comments about this, but he hasn't responded. Someone mentioned he might be busy preparing for retirement.

Sincerely,
Greg Tanner

City Parks Department Launches Volunteer Initiative

By Greg Tanner

Hale City (July 12) — In response to residents' concerns about conditions on the hiking paths at East Core Park, the Hale City Parks Department offers an explanation and an outline of its plans for trail upkeep.

'Trail maintenance is transitioning from being performed by city employees to an all-volunteer model,' said newly appointed parks commissioner Helen Yancey. 'Before my predecessor stepped down after twenty years of service to the city, he began this shift. The result was a temporary suspension of maintenance on the Blue Trail.'

Ms. Yancey added that the volunteer model will save money and allow residents greater involvement with the park system. Accordingly, the Hale City Parks Department has scheduled its first volunteer cleanup event, Trail Cleanup Day, on August 12, from 9:00 A.M. to 2:00 P.M. Those interested in volunteering may register online at www.halecityparks.org/events.

(A) Mr. Tanner initially planned it.
(B) The work took two days to complete.
(C) Volunteers attended a training session before the event.
(D) The date of the trail cleanup was changed.

To: All Staff · **From:** Miranda Noonan · **Date:** June 26 · **Subject:** Art auction · **Attachment:** Donations

Dear Employees,

Ogunsanya and Bolden Law Firm is hosting our annual art auction, with all proceeds going to building a community garden. Many local artists plan to donate pieces for our auction, and as always, we encourage all amateur artists in our firm to donate work as well. Get out those paintbrushes and pencils and unleash your creativity. It is always a treat to see our colleagues' art hanging alongside pieces by professional artists!

This year's auction will be at Seven Gates Hotel and Restaurant on Friday, July 27, at 7:00 p.m. Our event will be held in the hotel restaurant, which has excellent lighting for our purposes.

I have attached a chart listing the professional art that has been donated so far. If you are interested in contributing this year, please e-mail me the details about your submission. Keep in mind that photographs, paintings, and drawings are the most popular mediums. However, one local artist donated a large sculpture, which will be the auction's centerpiece. Apart from that piece, we will only accept sculptures under 50 centimeters tall.

Best regards,
Miranda Noonan, Auction Chairperson

Jae-Jun,

The Quinar 5000 in Building F is not working properly. It does not run at a steady speed and requires constant attention from line workers. It was checked at the monthly inspection and received an acceptable rating. However, it is now slowing production throughout Building F. I believe it may fail completely unless it is looked at very soon.

Please send a technician to check it as soon as possible, since the production schedule will likely need to be adapted because of downtime during the service visit.

Thank you.

Unfortunately, our internal equipment repair schedule is beyond capacity, so I am bringing on some new technicians next week. Meanwhile, I have authorized Konner Services to send one of their technicians to inspect the machine and make any necessary repairs. We have used this company before, and they are excellent. To: Marketing Team · From: Manuel Torres · Date: June 15 · Subject: 3-D printing article

Dear Team,

I recently read an interesting article about how 3-D printing is revolutionizing the toy and game industry. — [1] — One of the key advantages is that it allows for small-batch production, which means companies can test new ideas without committing to large manufacturing runs. — [2] — This flexibility is especially valuable for independent designers who want to bring their creations to market.

Another benefit is the ability to customize products for individual customers. — [3] — For example, a game company could create different versions of a board game with unique pieces for each customer. — [4] — I think we should explore how we might incorporate some of these ideas into our own product development.

To: info@alamitobotanicalsociety.org · From: rebeccaolton@mailhost.com · Date: May 1 · Subject: Question about garden tour

Hello,

I became a member of the Alamito Botanical Society last year shortly after moving to Presidio County. The society's Web site, resources, and educational lectures have been helpful regarding my ambitious project: to cover five acres of my land with various native plants that will attract birds and other animals. About one and a half acres of soil have been cultivated so far.

It would be a privilege to show my work to the public and to meet more people who value gardens as we members of the society do. Thus, I am writing to ask if I may participate in the Gorgeous Gardens Tour. I must admit that beautiful lavender bushes that are not native to the area were already growing on the property before I purchased it. However, lavender is not on the invasive-species list, and I continue to let them grow because the butterflies, bees, and other wildlife love the blooms.

Thank you,
Rebecca Olton

Dear Ms. Newsom,

Thank you for applying to be a host. Even though you have less space for vehicles than we normally require, Pink Ridge Ranch might be suitable for our smaller events with fewer than 25 people. We appreciate your having created an illustrated list of all the native flowers and trees growing wild on your property; none of our other hosts offers anything like this. Your list of plants would be a real asset for groups engaged in activities involving the identification of species.

I would like to arrange a site visit with my associate Peter Cumberland either this week or next. After 1 p.m. on a Thursday or Friday would work best for us, but we will try to accommodate your schedule if you prefer a morning or a different day.

Sincerely,
Oliver Jeong
Montana Site Coordinator

CÂU 174–178 · E-MAIL & QUẢNG CÁO — SURF BIRD BEACHWEAR

To: Mark Schroeder · From: Ashley Nguyen · Date: May 5 · Subject: Seasonal hiring

Hi, Mark,

I hope you can take care of our summer hiring this year. Last year, Nancy Adams put an advertisement in the Shoreline Observer, and we had applicants right away. I suggest using that paper again. We should hire the same number of workers as last year, but this time, all four should be full-time. Please write a new advertisement, and we can look at it together next week before sending it out.

And by the way, thanks for your work getting the Gravel Road store ready to open. I know you will be a great store manager when it is operational next month. One of your first responsibilities will be to put together a terrific staff.

Best,
Ashley Nguyen, General Manager
Surf Bird Beachwear

Surf Bird Beachwear, Jaxon Shore's best shop for casual clothing and beach supplies, has openings for four full-time workers. These seasonal positions will be available from the beginning of June until the end of August. Duties include handling sales, stocking shelves, assisting customers, and setting up displays. Some early morning and weekend work is required. We offer a competitive salary and excellent working conditions.

Surf Bird Beachwear has two locations in Jaxon Shore: the original Pelican Inlet store and, opening in June, our new Gravel Road location. All interviews will be conducted at the Gravel Road store. Go to www.surfbirdbeachwear.com/jobs to apply.

CÂU 179–183 · E-MAIL & BLOG — VENTANA AIRLINES

To: Executive Team · From: Kota Adachi · Date: October 11 · Subject: Trak-4 jets

Dear Team,

In late December, we will take possession of the first six of the twelve Trak-4 jets we ordered last year. The remaining jets will be delivered throughout the coming year. I believe these narrow-body jets represent the future of our airline. In addition to being the quietest jets on the market today, they are 20 percent more fuel efficient than the DB90s that we currently fly. They also have a smaller passenger capacity of 76 seats, making them ideally suited to underserved regional markets.

In anticipation of the upcoming delivery, we must decide what routes to fly the new aircraft on. Perhaps we need to rethink our entire hub system. We currently have seven regional urban hubs where our flights connect. Passengers flying between smaller cities must change planes at one of these hubs. Landing fees at these larger airports tend to be very high. We could drastically reduce our operating expenses by flying narrow-body craft directly to and from airports located away from these major urban centers.

I am setting up a meeting one week from today to discuss this issue. We will analyze the profitability of each of our current routes in order to reach an informed decision.

Kota Adachi
CEO, Ventana Airlines

Travelaider: A Blog about Where, Why, and How to Travel — By Ken Ogawa

Springfield (January 20) — I recently flew nonstop from Silver City to Centerville on Ventana Airlines. That's right, I said "nonstop." Ventana now offers direct flights between these two small cities with no need for travelers to change planes at Midwest National Airport, our only regional hub. I surely will not miss hurrying between terminals at Midwest through a sea of fellow passengers.

As for the flight itself, Ventana's new jets are a vast improvement over the old ones. The possibility of being stuck in the middle seat is no longer a concern. The new aircraft have only two seats on each side of the aisle, so everyone gets an aisle or window seat. The seats are also more comfortable than most airplane seats. The legroom was a little tight for a person my size, but someone of average height should have plenty of room to stretch out.

179. According to the e-mail, what will happen over the next twelve months?

(A) Travel to smaller cities will decrease.
(B) Landing fees at airports will increase.
(C) Ventana Airlines will receive new aircraft.
(D) Ventana Airlines will hire 76 additional staff.

180. How does the Trak-4 jet compare with the DB90 aircraft?

(A) It has more legroom.
(B) It has larger windows.
(C) It can accommodate more passengers per flight.
(D) It has no middle seats in its cabin.

181. What can be concluded about the Ventana Airlines executive team?

(A) It is no longer interested in using the Trak-4 jet.
(B) Its next meeting will be held on January 20.
(C) It decided to add routes that bypass urban hubs.
(D) It received an award for achieving its profitability goals.

182. What does Mr. Ogawa dislike about connecting at a hub?

(A) Waiting in line at security checkpoints
(B) Rushing from one terminal to another
(C) Having to eat quickly at the airport
(D) Boarding and deboarding the aircraft

183. What is most likely true about Mr. Ogawa?

(A) He is relatively tall.
(B) He is a commercial pilot.
(C) He lives in Centerville.
(D) He prefers a window seat.

CÂU 188–189 · QUẢNG CÁO — PROTECTO UMBRELLA WRAPPING MACHINES

Protecto Umbrella Wrapping Machines

Visitors entering and walking through a building with wet umbrellas unintentionally create wet and slippery floors. The Protecto Umbrella Wrapping machine (PUW machine) provides a simple and convenient way to address this problem. The machine is best placed in the entryway of your building. Upon entry, visitors insert their wet umbrellas into the machine. It automatically wraps the umbrella in a clear plastic bag, after which visitors can take their umbrellas. Upon leaving, they can discard the used bags in any nearby trash can.

PUW machines are available with one or two umbrella-wrapping devices and come in stainless steel or black. The machine wraps umbrellas in 1.5 seconds. The stand is mobile and thus can be rolled around to different locations. Purchase a PUW machine throughout November and receive a lightweight umbrella featuring our company logo.

CÂU 163–166 · THÔNG BÁO — STAFF EVENT

1 April, 7 to 10 P.M.

Calling all Madson Industrial Supply employees! This year's staff gathering features a new twist: an online trivia competition to test your knowledge of popular culture, sports, and entertainment. To foster company-wide collaboration, employees based in the London and Glasgow offices will sign into the Z-Hype room from their homes and be combined into virtual teams for this friendly competition.

Our virtual trivia night will last roughly two hours. Day passes to Good Stuff Theme Park in Manchester will be awarded to the winning team. Once the trivia competition has finished, we will keep the Z-Hype room open for another hour so that employees can mingle.

In addition to the trivia competition, we are excited to feature two contests that are old favourites: an award for the employee wearing the finest festive attire and an award for the most creative Z-Hype virtual background. We've seen many people work from a virtual beach, but how about from a famous World Heritage site or an extraterrestrial universe? Remember last year when Gerard Baxter sported a white tuxedo while phoning in from the rings of Saturn? Use your imagination to come up with something

unexpected! Each prize winner will receive a gift card for a meal at Sondra's Grill.

If you plan to join the fun, please complete the questionnaire on the company Web site by 28 March. Friends and family are welcome to participate. We look forward to seeing you there!

Chat discussion **Brett Tennison [8:16 A.M.]** Hi, Lianne and Shruthi. Did you two get the e-mail I sent yesterday?
Lianne Gammon [8:17 A.M.] About the company video you want to make?
Brett Tennison [8:18 A.M.] Yes. People want to feel a personal connection to the companies they work with. A video could help potential clients relate better to our team and generate business.
Shruthi Mehta [8:19 A.M.] I drafted an e-mail in response, but I haven't sent it yet. I wanted to go over it in my mind before sharing.
Lianne Gammon [8:20 A.M.] I like the idea. We'll have to be creative to get people interested, though.
Shruthi Mehta [8:21 A.M.] I'm not convinced that a video about us is a good idea. I just work at my computer all day. Who would want to watch that?
Brett Tennison [8:22 A.M.] That's why I asked for input. We'll want the video to show our personalities as well as what it is that we do. We can hire professionals to edit it. But let's first decide how we want it to be structured and then record it ourselves.
Lianne Gammon [8:23 A.M.] Why don't we make a few—so that we can reach different audiences? How about a short one to use as a paid ad and a longer one to post on our Web site?

CÂU 175–179 · QUẢNG CÁO & ĐÁNH GIÁ — A LIFE IN THE SPOTLIGHT

Coming soon from Meridian Press! A Life in the Spotlight: The True Story of Ibra Maalim by Helena Mackay

A Life in the Spotlight is the first biography of Ibra Maalim, who created some of the most memorable characters on the big screen. The son of a politician and a newspaper reporter, Mr. Maalim had originally planned to be an archaeologist. While he was a university student, he had a chance encounter with the director Nina Chen, who cast Mr. Maalim in a small role in her film The Winds of Sorrento. He quickly rose to fame. Over the next 30 years, Mr. Maalim became a household name, regularly appearing in motion pictures in Britain and the United States.

Ms. Mackay is known for giving balanced, objective views of her numerous biographical subjects, and A

Life in the Spotlight is no exception. She sheds light on previously unknown details of Mr. Maalim's life, gathered from extensive interviews with his longtime agent. Written in straightforward and accessible prose by an award-winning author, this book explores Mr. Maalim's life beginning with his childhood in India. It is sure to inform and entertain all of his fans.

A must-read for Maalim fans!

As a longtime fan of Ibra Maalim, I was looking forward to reading A Life in the Spotlight. I was not disappointed. Mackay paints a fascinating portrait of this enigmatic figure. There are dozens of interesting anecdotes about his life on and off set, most of which were told to Mackay in interviews with Alidia Lugo, who knew Maalim well. Mackay reveals Maalim's strengths and shortcomings, making the book more credible. I only have two complaints. The book says almost nothing about his childhood years or his relationships with his fellow University of Leeds students. I also wish there were more than two photographs, especially considering how much Maalim's reputation was based on his photogenic qualities.

Big Strike Lanes: Plenty To Enjoy — 16 May

I was very sad when Freeside Bowling shut its doors last year. Rustic, quaint, and run by the same family for three generations, it had the type of charm that only an old establishment can provide. I have many happy memories of good times there.

Then Big Strike Lanes opened a few months ago, and I wondered how it would compare. A few friends and I decided to visit and take advantage of a promotional offer, and I'm happy to say that our experience was better than expected. The bowling was great, and I really enjoyed the virtual reality, which I had never tried before.

At the restaurant, our servers were friendly, and the food was delicious. My only criticism of the place is the location. Big Strike Lanes is situated in a large shopping centre next to a busy motorway, so the surroundings are not exactly inviting.

CÂU 187–188 · E-MAIL — STUART GIRARD

Hello, Oliver,

I am interested in sharing the apartment you listed on the Roommate Roundup Web site. I'm looking for a fully furnished space with a private bathroom, and I see that yours has all that plus the bonus of reserved parking. At $850 including utilities, the monthly rent is just within my budget. I agree to give you the required security deposit of one month's rent in advance. I am quiet, easygoing, and reasonably neat. I work as a flight attendant with Winglite Airlines. I have been assigned to the airline's new route out of Arford that begins next month. I will be in Arford only half the time and will stay in a hotel near my destination airport for the rest of the week. That means you would have the apartment to yourself much of the time. I'm currently in Eider Bay but will be back next week. Could we set a time when I can meet you and look at the apartment?

Many thanks,
Stuart Girard

★★★★☆

I took the forklift training class for recertification for my job at Able Industries last month. I was concerned about taking the course online; however, it covered all the material from the on-site training that I had for my original certification—and more. It was also great that I did not have to travel to take the course and that I received my recertification that very same day! The trainer, Ms. Gogh, was excellent. She answered all my questions and was attuned to the challenges that forklift operators face. My only recommendation for the Forklift Training Academy is that they offer more variety in course days and times.

CÂU 160–163 · INSTRUCTIONS — PERSONAL STATEMENTS

Personal Statements

Personal statements are brief pieces of writing that showcase a job applicant's most notable talents, accomplishments, and qualities. Personal statements are evaluated both for the facts and details they offer and for the way the writer conveys this information. — [1] — Therefore, when you are composing a personal statement, it is important to be thoughtful about issues such as word choice and tone.

Though there is no set length for personal statements, employers sometimes offer guidelines. — [2] — If the employer does not provide a word count, aim for between 300 and 500 words. One page is generally considered the maximum length.

When crafting a personal statement, provide concrete examples of times when you had to rely on your unique qualities. This can be an effective way of demonstrating to a prospective employer your ability to overcome challenges. It is also a good idea to give examples of how you work with or learn from others. — [3] —

Do not forget to mention the specific job you are applying for and explain why you would be a good fit. Your final paragraph is an ideal place for this information, as you can create a separate version of this paragraph for each position you apply for. MCAC to Exhibit Alonso's Works

MAURELY CITY (August 29) — Using recycled materials has become popular with artists, and local sculptor Ida Alonso has happily embraced this trend. Her new exhibition, Throwaways into Treasure, runs from today until November 4 at the Maurely City Art Center (MCAC). Ms. Alonso had the idea for the project while reading about recycled plastic being made into park benches in the Journal for Professional Landscape Architects. She then began to collect old plastic bottles and cardboard shipping boxes and innovatively combined them with commercially made, recyclable building materials.

For the exhibition, Ms. Alonso has created a life-size imitation of commercial offices, with cubicles and partitions made from recovered materials. "By means of my synthetic office space, I am hoping to highlight the idea that old, unwanted objects can take on a new purpose," Ms. Alonso said. Guests who attend the art show will have the opportunity to bring in their own recyclable plastic items and place them in large collection bags set up around the perimeter of the exhibition room. Ms. Alonso also plans to add more

recyclable material to her installation as the show progresses.

Although MCAC will be the only venue for Ms. Alonso's show, the exhibition is expected to travel in a different sense. On the exhibition's final day, the works will be dismantled, and all the recyclable materials, including the items brought by visitors, will be transported to a Flyner Industries facility, where they will be shredded and transformed into material for waterproof curtains.

MCAC is open daily from 10:00 A.M. to 5:00 P.M. Admission to the art center is free. In addition to Ms. Alonso's show, works by several local art students will be on view in MCAC's main gallery.

Richmond Supermarket is now offering cooking classes in our own state-of-the-art kitchen, the same kitchen where we create flavourful soups, salads, and entrees for our prepared foods department. Every Monday evening from 7:00 p.m. to 8:30 p.m. we turn our kitchen over to a guest chef from one of Richmond's many fine restaurants. Participants learn to prepare a different dish each week. Learn new techniques you can bring home to delight your friends and family! All classes use ingredients you can find right here in the store.

This month's classes are as follows:
2 August — Butter Chicken (India)
9 August — Pad Thai (Thailand)
16 August — Fish Tacos (Mexico)
23 August — Roast Vegetable Lasagna (Italy)

The fee for each class is $55.00. To register, please call us at 604-555-0175 or visit www.richmondsupermarket.ca. There is a limit of 15 students per class. Classes sell out quickly, so reserve your spot today.
I love Richmond Supermarket's cooking classes! Last week, I learned to make fish tacos with corn tortillas, grilled tilapia, tomatillo salsa, and shredded cabbage. The instructor, Chef Bernal from Bernal's Restaurant, was fantastic. I can't wait to try the lasagna class next week! — Olivia Klein, August 17

CÂU 191–193 · E-MAIL — TECHSOLVE, INC.

Dear Ms. Kuroda,

We still need a few things for your personnel file. At the training for new hires this morning, we provided you with a checklist of the documents that we need to have on file. For your reference, I've attached a scanned copy of your checklist to this e-mail.

First, our security office requires proof of your identity. Employees usually submit a copy of their driver's license (front and back) or the personal information page from their passport, but any official government identification is acceptable. We also require your banking information to set up the electronic transfer of your salary to your account.

The final item on the list will only be needed if you join the company softball team. Do you play? Our company team participates in a league, and it's a great way to build rapport with the people you will be working alongside. The season is just beginning. I can send you details if you're interested.

Finally, I want to encourage you to attend the company picnic, which is always held on the third Friday in May at Briarwood Park. It's an opportunity to interact with your coworkers in an informal, nonworking environment. It's always well attended.

If you have any questions, contact me and we can schedule a chat.
